**SAILOR 7222 VHF DSC Class A****Subject:**New software release **version 1.13****Priority:**

**High:** It is highly recommended that this change / initiative be applied to all system(s) specifically due to the generally improved operational performance of the products that it offers.

**Identification:**

This new software version 1.13 is released for the SAILOR 7222 VHF DSC Class A and supersedes the previously released version 1.12. Changes and features in the new software release version 1.13 from previous version 1.12 comprise:

- RePlay feature improved – **see note 1**
- Power Supply Monitor feature implemented – **see note 1**
- Print of DSC messages now possible – **see note 1**
- Enabling of CAN bus termination from menu of Control Unit – **see note 1**
- Parring of Control Unit & Transceiver Unit is now done from menu of Control Unit – **see note 2**
- DAC value for VDR adjusted.
- General improved stability of the platform.

The software packages, are available for download at the Cobham SATCOM Partner Portal at <https://partnerportal.cobhamsatcom.com/eshop>

**Important Note:**

- **Note 1:** Further description of new introduced features, please consult new released manuals:
  - User Manual – Doc. No.: 98-171832-E
  - Installation Manual – Doc. No.: 98-171833-E
- **Note 2: IMPORTANT:** It is **NO** longer possible to do parring of Control Unit & Transceiver Unit by doing factory reset of these units. It must be done from the menu of the Control Unit. Please check new manuals (see **Note 1**) and updated:
  - **Software Update Guide – Doc. No.: 95-183559-E**
- It is advised to disconnect the VHF7222, both Control Unit and Transceiver Unit, from any LAN network, before doing software update. Remember direct Ethernet connection between Control Unit & Transceiver Unit.
- When updating VHF7222 software from 1.11 to latest version, use TMA Tool and check document **95-183559-E Software update guide version** for detailed update description.

**Manual update:**

- See Note 1 above.

**Action:**

As stated above under "Priority".
